Overnight Emergency Procedures

During overnight shifts in the complex, when the building is not open to the public, emergency management authority rests with the City of Hoover Public Safety Officials. Should an emergency arise at any of these times, appropriate management would be contacted, as outlined in the Emergency Response Plan.

Call in Priority:	Work Phone	Cell Phone
Tucker Rainey, Facility Operations Manager	205.739.7372	256.227.1583

If an overnight emergency were to occur while conversion or housekeeping was taking place, the Security Supervisor would call building management in the following order:

Call in Priority:	Work Phone	Cell Phone
Tucker Rainey, Facility Operations Manager	205.739.7372	256.227.1583

EMERGENCY PLAN

I. STATEMENT OF PURPOSE

The Emergency Plan initiated by Hoover Met Complex addresses situations that could:

1. Endanger life
2. Cause physical harm
3. Create Confusion
4. Damage property
5. Cause extreme inconvenience

As identified in the Hoover Met Complex (HMC) Multi-Departmental Emergency Plan, possible hazards include fire/explosion, severe weather, power failure, bomb threat, crowd control, hazardous material spills and structural collapse and active shooter situations. These hazards could require a full facility evacuation of the Hoover Met Complex and or its parts. This plan is for **internal** use by **Hoover Met Complex personnel and Public Safety Officials only**.

II. RESPONSIBILITY FOR COORDINATING EMERGENCY ACTIONS

The General Manager or his/her designee will assume the responsibility for coordinating emergency actions. In the event of his absence, the following personnel will take command in the following priority order:

- Director of Events
- Security and Parking Manager
- MOD
- Senior Full time HMC Personnel

III. COMMAND POST

Key Hoover Met Complex supervisors and contractors are instructed to report to the Administrative office area located near food court of Finley Center. The alternate location will be in the Climbing Center at the front of Finley Center. If either of these areas are deemed to be unsafe or inaccessible, the Hoover Met Stadium Administrative area is the alternate location. Radios, blueprints, alarms, etc., provided at each location for access by emergency workers. Initial emergency responders from the City of Hoover Fire Department, Hoover Police Department and local EMS, should report to these locations for a briefing and initial assessment. The appropriate Incident Commander will then select a location for establishing a command post in conjunction with the appropriate Hoover Met Complex staff.

In case of an emergency, the following Hoover Met Complex officials will be present: General Manager, Event Director – Operations Manager, Security Manager and designated event promoter. Actions will be coordinated with City public safety officials present in the command center.

IV. RADIO COMMUNICATIONS

All department heads of Hoover Met Complex and all sub-contractor services or their designee will bring their portable radios to the designated briefing area and will utilize Hoover Met Complex main event channel for communications. All non-department heads of Hoover Met Complex and its sub-contractors will operate on designated event channels and remain on those channels for further instructions from the Hoover Met Complex Management or their designee. Inter-departmental radio communications will take place on established channels.

V. PUBLIC INFORMATION

- Prior to being released, information to either the news media or general public concerning emergency activities within, will be coordinated jointly between the Hoover Met Complex and City's public safety departments, per established procedure in the Hoover Met Complex Emergency Operations Procedures. To further prevent the release of inaccurate information, all Hoover Met Complex employees will direct any media inquiries to the Hoover Met Complex General Manager or his designee immediately.
- Representatives of news media calling the switchboard will be directed to the office of the Hoover Met Complex General Manager.
- Public information of this nature will be disseminated through joint news briefings with City public safety departments.
- During an event, the General Manager or his designee will direct the Security personnel to make the appropriate emergency announcements to Hoover Met Complex patrons.

Emergency Structure

An emergency is any unplanned event, which may cause injuries and or death, to guests or employees; interrupt normal business operations; physical or environmental damage; or can threaten the facility's financial standing or public image. Emergencies range from being irritations that cause minor disruption to catastrophic events that forever scar individuals and organizations. It is important to be able to recognize an emergency situation, and to react and respond in the appropriate manner.

The sequence of an emergency can be broken down as:

- Discovery
- Assessment
- Notification
- Take Action
- Clean up and Follow up

It is important to recognize your abilities and priorities when handling an emergency situation:

- Protect yourself and others
- Provide or get First Aid Assistance
- Protect Property

- Record Incidents on an Incident Report
- Do not disturb the scene until authorized. Do not speak to the media unless authorized

Event Emergency Management Structure

The Chart below outline the management structure/chain of command for evacuation procedures or unexpected emergencies.

Responsibilities of key positions:

General Manager or Manager on Duty – During an emergency, assumes the overall leadership role in the building while liaison with the Hoover Police Department Officer in charge and the responding emergency agencies.

Operations MOD or HPD Event Officer in Charge on Duty – In charge at the scene of a fire or other emergency involving the protection of life and or property, and shall remain in charge until authority is relinquished.

Event Manager – Responsible for the overall management of the arena during events; prime contact with team representative and or promoter; will execute the necessary response plan when authorized by Manager on Duty.

***Responding Agencies** – Hoover Fire Department, EMT’s/paramedics, Sheriff’s Office, State Troopers, etc...will confer with HPD Event Officer in Charge on Duty upon arrival.

Figure 1: - Event Emergency Management Structure

VI. BOMB THREATS – CODE BLUE

TELEPHONE OPERATOR PROCEDURE

All Hoover Met Complex employees must familiarize themselves with Hoover Police Department Bomb Threat and Emergency Procedures. All personnel will have a copy of the bomb threat call checklist at their desks at all times. Additional training on handling bomb threat calls and identifying suspicious packages will be conducted by the Hoover Police Department.

Upon receiving a bomb threat, the operator should attempt to keep the caller on line as long as possible and complete the checklist. If the threat is received through the main switchboard, make note of which trunk line the call is received on.

IMPORTANT: Do not discuss the call with anyone else except those personnel mentioned above. It is extremely important to follow all procedures as outlined.

NOTIFICATION

General Manager or their designated representative will assume primary responsibility for notification of a bomb threat. Director or designee will notify the city's 9-1-1 system. The 9-1-1 operator will take appropriate information and make subsequent Government notifications. Hoover Met Complex notifies department heads and sub-contract services personnel, as needed.

SEARCH ACTION – IDENTIFIED OVER THE RADIO AS A “CODE BLUE”

Search Action (**Code Blue**) will be conducted using the sweep procedure outlined on page 14. ***Any suspicious object which could be an explosive device must not be disturbed by anyone.*** Hoover Fire Department (HFD) Bomb Squad will be notified immediately by responding HFD supervisor.

- General Manager or designee notifies 9-1-1 and describes the situation to the operator. The Hoover Fire Department will, upon arrival at the scene of the suspicious object, assume command and take appropriate action.

In the event a partial or full evacuation of occupants is ordered, the following actions will be taken by Hoover Met Complex staff:

- Commence evacuation of occupants. Persons located nearest the incident site and disabled/special needs patrons will be evacuated first. Safe areas will be outside the building at least 300 feet away.
- Operations Department personnel will shut down mechanical systems in the facility as required and will be available for assistance to the Incident Commander.
- If ordered by the Incident Commander, public safety officials are responsible for the safe evacuation of Hoover Met Complex patrons once they are 300 feet away from the building.

NOTE: HOOVER MET COMPLEX STAFF SHALL NOT TRANSMIT 2 WAY RADIOS OR CELLULAR PHONES WITHIN 300 FEET OF THE SUSPICIOUS OBJECT. RADIO FREQUENCY COULD TRIGGER DEVICE. A PUBLIC ADDRESS ANNOUNCEMENT WILL BE MADE REQUESTING THE SAME OF HOOVER MET COMPLEX OCCUPANTS.

Search responsibilities:

STAFF

AREA

**Operations
Manager-**

Mechanical and electrical rooms and all technical spaces

**Food and Beverage
Manager -**

All Kitchen areas, to include storage, freezers & coolers

Manager On Duty - All offices and climbing area

Security Manager - All Storage areas, including stairwells and roof tops

SWEEP/VERIFICATION/ALL-CLEAR

The primary purposes for the sweep is to search for suspicious packages or potential explosive devices, after a bomb threat is received or to check for Hoover Met Complex patrons or employees who remain after a building evacuation.

DURING EVENT

A sweep will begin simultaneously in the upper areas on all sides of the building and work downward. Depending on the type of event, seating capacity and locations will vary on the event floor.

Operations and Security personnel will sweep all levels, Hoover Met Complex maintenance rooms, storage areas, offices, and any other areas of access such as ramps, stairwells, and rest rooms.

Event Staff personnel and Hoover Met Complex personnel will sweep areas which include all offices, seating areas, Food court, rest rooms, janitor closets, trash containers, stairwells, and other areas of responsibility.

Food and Beverage, and merchandise vendors, are responsible for sweeping their work areas for suspicious packages and notifying anyone present to evacuate the facility.

DURING NON-EVENT TIMES

Hoover Met Complex Operations and Security personnel will sweep all areas indicated above. Food and Beverage Manager will sweep all food service areas as noted above.

VII. FIRE (CODE RED)

The Finley Center is fully equipped with a sprinkler system and fire extinguisher suppression system, located on all concourses, suites, offices and back of house areas (meeting rooms) and common areas, throughout the stadium.

The Main Fire Panel is located in the MDF Closet (Room #115) in the rear of the Finley center. The Annunciator Panel for the fire alarm system is located on the wall in the Main lobby adjacent the push button for the handicapped doors. The Fire Pump Room is located on the ramp for the loading dock and is identified as the Sprinkler Riser (Room #130). A second Fire Pump area is located in the top of the stairwell leading to the track on the west, or Hoover Met Stadium, side of the Finley Center. It is the responsibility of the Manager on Duty to coordinate and assist with emergency actions through the Hoover Fire Department.

Upon any fire or smoke related incident at the Hoover Met Complex, being observed or reported to Hoover Met Complex officials, immediate notification must be made to on-site Hoover Fire Department and Hoover Police Department personnel, via the Command Post, which is located in the Administrative office area. When in extreme emergencies, call 9-1-1. After a fire has been extinguished, the Operations Manager or designee in cooperation with the Fire Department, supervises salvage operations and the restoration of sprinkler protection. The system is monitored 24 hours a day.

I. Steps to be taken in the event of a fire or fire alarm:

1. If the Finley Center is in general alarm (ie strobes flashing, and annunciator saying to evacuate the building), then remain calm and inform patrons that the alarm is being investigated, and they do not have to leave. If they wish to leave, they may, and then return when the alarm is cleared.
2. The reporting staff member will call the Manager on Duty on the events channel and report that the Fire Alarm system has been activated and they need to call 911. The Manager on Duty is to be notified via radio with the message that the Fire Alarm system has been activated and he/she will determine if an evacuation is necessary.
3. If the fire alarm panel shows an alarm, but the Finley Center is not in a general alarm status, then the office personnel will silence the fire alarm panel and relay the location of the active fire device to the operations department, security and event coordinator via radio. The nearest staff member will investigate to verify if a fire exists. If no fire is detected, the office staff member, silences the alarm immediately, and resets the panel. If a fire does exist, and the staff member investigating the fire decide if the fire is uncontrollable then they should pull the nearest pull station, so the building goes into general alarm. They also call the Manager on Duty on channel 1 and report that we are experiencing a fire, the fire alarm has been activated and they need to call 911. The Manager on Duty is to be notified via radio with the message that an actual fire is occurring and he/she will determine if an evacuation is necessary.

When calling 911, the following information needs to be provided to the 911 operator:

LOCATION: Hoover Met Complex

ADDRESS: 5508 Stadium Trace Pwky

LOCATION OF FIRE: LOBBY, GYMNASIUM, DOCK, SPECIFIC MEETING ROOM, ETC.

- The Hoover Met Complex General Manager or Designee will assign staff, to ensure the facility fire pumps are operational. If not, pumps should be turned on manually. Once the fire pumps are operational, the Operations Staff shall proceed to the Security Command Post at the designated location.
- Fire alarm sensors (as indicated in the fire control panel located in the Fire Panel Room). At this time the Operations Manager or Designee will investigate the cause of the alarm. Note: the public address system and voice alarm are captured and ready for use if needed. After the specified time has elapsed, appropriate actions will be taken by the Operation Manager or Designee.

Fire Alarm and Detection

Manufacture and Model

Edwards United Technology
iO Series Fire Panel

Zones and Stages

There are 135 degree-F heat detectors in normal temperature spaces and in elevator equipment rooms, sheaves and boiler room. There is alarm status reporting for extinguishing systems, sprinkler flow switches and tamper switches. This system detects and reports on wet pipe sprinkler system.

Sequence of Operation

Smoke control mode is automatically activated from a signal from the fire alarm system detecting smoke in the stadium from the air sampling detectors, or manually through the fire department FireFighter Control Panel (FFCP).

Detectors

Heat:

Intelligent thermal detectors rated at 135 degrees Fahrenheit.

Smoke:

Detectors use the photoelectric (light-scattering) principal to measure smoke density and shall, on command from the control panel, send data to the panel representing the analog level of smoke density.

Flow switches, tamper switches and post indicating valves

Ansul:

This is a self-contained extinguishing system for food service equipment.

Duct smoke detectors:

These detectors are intelligent photoelectric detectors that provide continuous analog monitoring and alarm verification from Fire Alarm Control Panel (FACP). When sufficient smoke is sensed appropriate action is taken to change over air handling systems to help prevent the rapid distribution of toxic smoke and fire gases throughout the areas served by the duct system.

Sprinkler System:

- Building - Wet system

Manual Pull Stations:

- A total of (11) pull stations are located throughout the Finley Center. A pull station, which when pulled will activate the fire alarm system, is located adjacent each ground floor entry/exit door.

Fire Rescue Access

Primary Entrance: Front Lobby
Secondary entrance: Side access Via RV lot

Water Main Service: Hydrants are located:

- On East (RV Park) side of Main Entrance
- Rear of building adjacent Loading Zone Ramp

Fire Pump: Located in the fire pump room and top of stairwell on west side of Finley Center

Upon the completion of the evacuation, Hoover Met Complex staff shall exit the building and report to the following locations for a head count:
Parking area at the front of Finley Center if not accessible, secondary meeting location will be the Loading Dock area in the back of Finley Center.

DEPARTMENT RESPONSIBILITY

<i>Department Responsibility</i>	<i>Location</i>	<i>Head Count</i>
Manager on Duty	Primary or Secondary Locations	

EVACUATION

PARTIAL BUILDING EVACUATION PROCEDURES - IDENTIFIED OVER THE RADIO AS A “CODE RED”

In the event of an isolated/minor emergency, persons in the immediate area may be asked by Hoover Met Complex personnel to evacuate the area. They will be directed to safe areas until the danger has passed. Hoover Met Complex personnel and event staff will assist patrons in evacuating the facility. **When identifying this situation over the radio, identify it as having a “I Have a Code Red in (location).”**

Based on information provided at the time of the emergency, fire and police department incident commanders have authority to order an evacuation of the building for public safety reasons. In all other cases, it is the sole responsibility of the General Manager/ Manager on Duty or his/her designee to order an evacuation.

The evacuation of Hoover Met Complex patrons to the exterior of the facility is the responsibility of the venue. Hoover Met Complex staff shall familiarize themselves with the locations of all fire hose valves, extinguishers and exit routes from their assigned areas, per Fire Marshal requirements. Primary exit from the stadium is through any exterior door clearly marked with an **EXIT** sign.

All stairways must be safe to exit. Each one will be inspected by Hoover Met Complex staff and event security prior to any evacuation order.

At the start of an evacuation, elevators will automatically shut off during alarm activation, or should be shut off manually by Hoover Met Complex security or operations staff.

Hoover Met Complex and all subcontractor staff shall establish contact with their supervisors for emergency instructions.

The General Manager/MOD, Event Manager, Operations Manager, and highest ranking member of the facilities staff shall report directly to designated Control or other designated location, depending upon current circumstances.

Patrons will be assisted in the evacuation by Hoover Met Complex staff and event security via the nearest safe exit from the building.

All employees understand their first responsibility is to serve Hoover Met Complex patrons and aid in their safe/expedient evacuation. Upon the completion of the evacuation, Hoover Met Complex staff shall exit the building and report to the following locations for a head count:

<u>Department</u>	<u>Location</u>
All Staff and Patrons	Primary location - Front of Finley Center 300ft. away
All Staff and Patrons	Secondary Location – RV Lot 300ft away

MOBILITY IMPAIRED PATRONS

Special attention will be provided to disabled patrons. Guests will be evacuated with assistance from Guest services staff or and security staff to designated areas.

At the start of an evacuation, elevators will be shut off, therefore do not put anyone on an elevator.

BOX OFFICE PROCEDURES

Box Office Representative(Shift Lead) or designee will instruct ticket sellers to secure all ticket receipts and ticket stock. All box office employees are to exit the facility through nearest exit door and proceed to the Administration Office or evacuation location on exterior of building.

POST EVACUATION PROCEDURES

The General Manager or designated representative will advise the supervisory staff of post evacuation procedures and actions as dictated by the situation. Supervisory staff will then advise all other Hoover Met Complex and event personnel of the aforementioned information.

Hoover Met Complex Management will disseminate information via the media and other means regarding refund policy, if any.

Team Evacuation:

During Game:

- Players, coaches, and officials will be escorted to a central location. If the need to evacuate arises, then they will be escorted out of the facility to designated areas
- Family members will be notified and will be reunited at evacuation locations following head count and personnel verification.

VIII. ACTIVE SHOOTER (CODE BLACK)

ACTIVE SHOOTERS - HOW TO RESPOND

PROFILE OF AN ACTIVE SHOOTER

An active shooter is an individual actively engaged in killing or attempting to kill people in a confined and populated area. In most cases, active shooters use firearm(s) and there is no pattern or method to their selection of victims.

Active shooter situations are unpredictable and evolve quickly. Typically, the immediate deployment of law enforcement is required to stop the shooting and mitigate harm to victims.

Because active shooter situations are often over within 10 to 15 minutes, before law enforcement arrives on the scene, individuals must be prepared both mentally and physically to deal with an active shooter situation.

Good practices for dealing with an active shooter situation

- **Be aware of your environment and any possible dangers**
- **Take note of the nearest two exits in any facility that you visit**
- **If you are in an office, stay there and secure the door**
- **If you are in a hallway, get into a room and secure the door**
- **As a last resort, attempt to take the active shooter down. When the shooter is at close range and you cannot flee, your chance of survival is much greater if you try to incapacitate him/her**

CALL 911 WHEN IT IS SAFE TO DO SO!

HOW TO RESPOND WHEN AN ACTIVE SHOOTER IS IN YOUR VICINITY

Quickly determine the most reasonable way to protect your own life. Remember that customers and clients are likely to follow the lead of employees and managers during an active shooter situation.

1. Evacuate

If there is an accessible escape path, attempt to evacuate the premises. Be sure to:

- Have an escape route and plan in mind
- Evacuate regardless of whether others agree to follow
- Leave your belongings behind
- Help others escape, if possible

- Prevent individuals from entering the area where the active shooter may be
- Keep your hands visible
- Follow the instructions of any police officers
- Do not attempt to move wounded people
- Call 911 when you are safe

2. Hide out

If the evacuation is not possible, find a place to hide where the active shooter is less likely to find you.

Your hiding place should:

- Be out of the active shooter's view
- Provide protection if the shots are fired in your direction (i.e., an office with a closed and locked door)
- Not trap or restrict your options for movement

To prevent an active shooter from entering your hiding place:

- Lock the door
- Blockade the door with heavy furniture

If the active shooter is nearby:

- Lock the door
- Silence your cell phone and pager
- Turn off any source of noise (i.e., radios, televisions)
- Hide behind large items (i.e., cabinets, desks)
- Remain quiet

If evacuation and hiding out are not possible:

- Remain calm
- Dial 911, if possible, to alert police to the active shooter's location
- If you cannot speak, leave the line open and allow the dispatcher to listen

3. Take action against the active shooter

As a last resort, and only when your life is in imminent danger, attempt to disrupt and/or incapacitate the active shooter by:

- Acting as aggressively as possible against him/her
- Throwing items and improvising weapons
- Yelling
- Committing to your actions

HOW TO RESPOND WHEN LAW ENFORCEMENT ARRIVES

Law enforcement's purpose is to stop the active shooter as soon as possible. Officers will proceed directly to the area in which the last shots were heard.

- Officers usually arrive in teams of four (4)
- Officers may wear regular patrol uniforms or external bulletproof vests, Kevlar helmets and other tactical equipment
- Officers may be armed with rifles, shotguns, handguns
- Officers may use pepper spray or tear gas to control the situation
- Officers may shout commands, and may push individuals to the ground for their safety

How to react when law enforcement arrives:

- Remain calm, and follow officer's instructions
- Put down any items in your hands (i.e., bags, jackets)
- Immediately raise hands and spread fingers
- Keep hands visible at all times
- Avoid making any quick movements toward officers such as holding onto to them for safety
- Avoid pointing, screaming and/or yelling
- Do not stop to ask officers for help or direction when evacuating, just proceed in the direction from **WHICH** the officers are entering the premises

Information to provide to law enforcement or 911 operators:

- Location of the active shooter
- Number of shooters, if more than one
- Physical description of shooter/s
- Number and type of weapons held by the shooter/s
- Number of potential victims at the location

The first officers to arrive to the scene will not stop to help injured persons. EXPECT rescue teams comprised of additional officers and emergency medical personnel to follow the initial officers. These rescue teams will treat and remove any injured persons. They may also call upon able-bodied individuals to assist in removing the wounded from the premises.

Once you have reached a safe location or assembly point, you will likely be held in that area by law enforcement until the situation is under control, and all witnesses have been identified and questioned. Do not leave until law enforcement authorities have instructed you to do so.

RECOGNIZING POTENTIAL WORKPLACE VIOLENCE

An active shooter in your workplace may be a current or former employee, or an acquaintance of a current or former employee. Intuitive managers and coworkers may notice characteristics of potentially violent behavior in an employee. Alert your Human Resources Department or Manager/Supervisor, if you believe an employee or coworker exhibits potentially violent behavior.

Indicators of Potential Violence by an Employee

Employees typically do not just "snap", but display indicators of potentially violent behavior over time. If these behaviors are recognized, they can often be managed and treated. Potentially violent behaviors by an employee may include one or more of the following (this list of behaviors is not comprehensive, nor is it intended as a mechanism for diagnosing violent tendencies):

- Increased use of alcohol and/or illegal drugs
- Unexplained increase in absenteeism: vague physical complaints
- Noticeable decrease in attention to appearance and hygiene
- Depression / withdrawal
- Resistance and overreaction to changes in policy and procedures
- Repeated violations of company policies
- Increased severe mood swings
- Noticeable unstable, emotional responses
- Explosive outbursts of anger or rage without provocation
- Suicidal; comments about “putting things in order”
- Behavior which is suspect of paranoia, (“everybody is against me”)
- Increasingly talks of problems at home
- Escalation of domestic problems into the workplace; talk of severe financial problems
- Talk of previous incidents of violence
- Empathy with individuals committing violence
- Increase in unsolicited comments about firearms, other dangerous weapons and violent crimes

MANAGING THE CONSEQUENCES OF AN ACTIVE SHOOTER

After the active shooter has been incapacitated and is no longer a threat, management should engage in post-event assessments and activities, including:

- An accounting of all individuals at a designated assembly point to determine who, if anyone, is missing and potentially injured
- Determining a method for notifying families of individuals affected by the active shooter, including notification of a casualties
- Assessing the psychological state of the individuals at the scene, and referring them to health care specialists accordingly
- Identifying and filling any critical personnel or operational gaps left in the organization as a result of the active shooter

IX. SEVERE WEATHER (CODE GREEN)

Hoover Met Complex Staff works closely with the City of Hoover’s Office of Emergency Management, along with the National Weather Service Severe weather bulletins are sent to senior HMC staff, for any potential weather threats in the Greater Birmingham area.

When a severe weather is broadcast during an event at the Hoover Met Complex, and the threat of lightning is approaching, the management team will assemble either in the Security Control or the Administration Office. The decision will be made to delay the event, with the possibility of sheltering in place, or if the decision is made to evacuate the Complex, if patrons will be allowed to return to their seats, after the threat is over. Any event that is delayed, will not resume until 30 minutes after the last lightning strike in the area, is over 6 miles away. If within that time period, another lightning strike occurs, then the clock will re-set to 30 minutes.

LIST OF ATTACHMENTS:

1. EVACUATION PUBLIC ADDRESS ANNOUNCEMENT
2. CHECKLIST - SEVERE WEATHER / STRUCTURAL DAMAGE
3. CHECKLIST - POWER FAILURE
4. GENERAL - FIRST AID
5. ENGINEERING CHECKLIST (Damage Assessment)
6. BUILDING MAINTENANCE SAFETY PROCEDURES
7. BOMB THREAT CALL FORM

ATTACHMENT 1

EVACUATION PUBLIC ADDRESS ANNOUNCEMENT

LADIES AND GENTLEMEN – YOUR ATTENTION PLEASE !

LADIES AND GENTLEMEN – YOUR ATTENTION PLEASE !

DUE TO UNFORESEEN CIRCUMSTANCES, THE HOOVER MET COMPLEX WILL NEED TO BE EVACUATED. FACILITY PERSONNEL THROUGHOUT THE BUILDING ARE STANDING BY TO ASSIST YOU TO THE NEAREST EXIT. PLEASE PROCEED IN A CALM AND ORDERLY FASHION TO THE NEAREST EXIT, NOW. PUBLIC SAFETY OFFICIALS WILL BE AVAILABLE OUTSIDE TO PROVIDE FURTHER ASSISTANCE.

THANK YOU FOR YOUR ASSISTANCE IN THIS PROCESS.

(INSERT ABOVE IF BOMB RELATED) PLEASE DO NOT USE CELLULAR PHONES UNTIL YOU ARE MORE THAN 300 FEET AWAY FROM THE BUILDING.

MESSAGE TO BE PUT ON SCORE BOARD

ATTENTION: PLEASE VACATE THE STADIUM IN A CALM AND ORDERLY MANNER NOW.

ATTACHMENT 2**INCIDENT CHECKLIST****SEVERE WEATHER / STRUCTURAL DAMAGE**

Keep calm. Do not run or panic. Remain where you are.

IF INDOORS:

- Stay indoors or under covered areas. Take cover under a desk, table or bench, or in doorways, halls or against inside walls. Stay away from glass windows and doors. Do not run outside as you may be hit by falling debris or live electrical wires.

IF OUTDOORS

- Get away from the stadium. Go to clear areas and stay away from walls, utility poles and downed wires that could cause serious injury or death.
- Do not run through or outside buildings. The greatest point of danger is just outside doorways and close to outer walls/fences.
- Turn on a portable radio. Do not use the telephone, except to report emergencies.
- As soon as it is safe to do so, Operations personnel will make a preliminary inspection of the facility paying particular attention to:
 - water leaks (shut water off to boilers - water in boilers may be used for drinking)
 - gas/chemical leaks
 - electrical damage
 - structural damage

ATTACHMENT 3

INCIDENT CHECKLIST

POWER FAILURE

- Prepare to evacuate on short notice.
- Monitor emergency radio and television stations on portable battery operated units.
- Store and lock valuables before leaving your work area. Box office personnel should follow money vault procedures.
- Security office or operations on duty notifies 9-1-1 for emergency response and power restoration by Alabama Power.
- Follow the instructions and advice issued by the City's public safety department officials.
- Seek necessary medical care at nearest first aid stations.

ATTACHMENT 4

GENERAL FIRST AID

- Keep injured person lying down, covered and warm. Call Paramedics, MOD, and Event Manager during events.
- Don't move the individual except from an area which would further endanger his/her life.
- Do not give unconscious or semi-conscious person anything to drink.
- Do not let an injured person see their wounds.
- Reassure him/her and keep the individual comfortable.
- Take accident report and submit it to the Event Manager within 24 Hours of accident.

**OPERATIONS CHECKLIST
(Post Incident Damage Assessment)**

BUILDING STRUCTURE

1. Exterior structure
2. Roof areas and overhangs
3. Interior wall sections (reinforced walls, partitions, etc.)
4. Flooring (concrete, tile, etc.)
5. Equipment pads
6. Columns, beams, and all steel structures

MECHANICAL

1. Large equipment condition (thermal unit, absorption unit, ice harvester, AHUs, etc.)
2. Broken piping and hangers
3. All safety requirements

FIRE PROTECTION

1. Sprinkler Alarms, and their related components
2. Damaged sprinkler heads, fire hose stations, etc.
3. Broken pipes and pipe support
4. Alarm panel board

ELECTRICAL

1. Main Switch Gear
2. Loose wiring
3. Broken fixtures and light bulbs
4. Control Panels

MISC. ITEMS

1. Ceiling tiles
2. Floor tiles
3. Curtain walls (air walls)
4. Ceiling registers, and diffuser
5. "EXIT" doors (and any other doors).
6. Kitchen equipment
7. Freezer, coolers, etc.

ATTACHMENT

BUILDING MAINTENANCE SAFETY PROCEDURES

A. ELECTRICAL

If a short circuit exists inside the stadium, notify the Operations Manager or Designee to turn off the electricity at the electrical distribution panel. If necessary, call Alabama Power and City Waterworks. Operations Manager or Designee should then report status to the General Manager or authorized representative.

Keep personnel and guests clear from area until safe to return.

B. GAS

Inspect for leaky pipes by smell only. Do not use candles, matches or other open flames.

If you smell gas, open windows and doors so gas can escape. Contact the Operations Manager or Designee to shut off the main valve at the meter. The Operations Manager or Designee should then report status to the General Manager or authorized representative.

Keep personnel and guests clear from area until it is safe to return.

C. WATER

If water is leaking inside the facility, notify the Operations Manager or Designee to shut off the main valve. The Operations Manager or Designee should then report status to the General Manager or authorized representative.

Keep personnel and guests clear from area until it is safe to return.

BOMB THREAT CALL FORM

Date _____ Location _____ Time _____

Stay calm - listen carefully - be polite - do not interrupt the caller. Keep the caller talking; get as many details as possible!

Find out:

What kind of bomb? _____
 Where is it located? _____
 When will it go off? _____
 Why was it placed? _____
 What group are you with? _____

Determine:

Male/Female _____ Adult/Teen/Juvenile _____

Type of voice: Loud _____ Soft _____ Articulate _____
 Rough _____ Deep _____ Intoxicated ___ Other _____

Speech: Fast/Slow _____ Distinct _____ Slurred _____ Other _____

Pitch: High _____ Low _____ Varied _____

Accent: Y/N _____ Local _____ Foreign/regional ___ Other _____

Style: Angry _____ Frantic _____ Calm _____
 Slurred _____ Laughing _____ Steady _____

Background noises: Machinery _____ Office _____ Factory _____
 Planes _____ Trains _____ Subway _____
 Street _____ Cars _____ Crowd _____
 Bus _____ Other _____

Former Employee: Yes/No _____ Customer _____

Other Information:

Employee who received information: _____

Instructions for Person Who Received Call

After you have listened to the caller and taken notes on the form above and you are no longer talking to the caller, call SENIOR MANAGEMENT with a "Code Blue." Then call EACH channel on the radio and say the following:

"Clear this channel. Clear this channel. We have a Code Blue. We have a Code Blue. Go to Channel

1. Go to Channel 1."

ATTACHMENT

Receptionist/Person who received call then goes to Channel 1. A predetermined group of employees will meet in the conference room as well as representatives from the event. After a brief meeting, employees will check their preassigned areas for suspicious packages and meet at the following places after 15 minutes of searching.

Bomb Threat

Any employee or guest in the Facility may receive a bomb threat, but often, these threats are received over the phone by the office employees, event night receptionist.

Bomb threats are divided into two categories:

- **SPECIFIC** – A threat by a caller who has placed a bomb, or who has firsthand knowledge of a bomb being placed in the building.
- **GENERAL** – A threat is placed by a caller to create an atmosphere of anxiety and is intended to disrupt the operation of the facility.

IF YOU RECEIVE A PHONE CALL OR NOTE

1. Remain calm and try to keep the caller on the line. Try to obtain as much information as possible on the checklist
2. If your phone has caller ID, try to write the number down
3. Notify Security and your supervisor immediately, as soon as the caller hangs up
4. If you receive a note, try to handle it as little as possible
5. Provide a description of the note, location, and any suspicious persons nearby, etc...
6. Save all materials, including envelope and container and **DO NOT** let anyone else touch it, until police arrive

IF YOU FIND OR RECEIVE A SUSPICIOUS PACKAGE

1. Notify Security immediately
2. Do not touch the package and **DO NOT** let anyone else touch it, until police arrive
3. Try to handle it as little as possible
4. Secure the area if possible and try not to use a cell phone or radio
5. Save all materials, including packing and container

ASSESSMENT

Upon receiving notification of a bomb threat, the General Manager on Duty and the Event Manager will consult with the HPD Officer in Charge on Duty, utilizing their knowledge and expertise. Based upon the information received, in combination with other mitigating factors, the General Manager or Manager on Duty may decide to evacuate the facility. If this is the case, standard evacuation procedures will be followed. In certain instances, an evacuation will not be ordered. However, a sweep of certain areas may be requested. If during this sweep employees notice anything suspicious, do not touch or disturb it, rather report findings immediately to your supervisor or Dispatch.

GENERAL GUIDELINES FOR SWEEP

Follow these guidelines when conducting a sweep of the arena:

1. Remember not to disturb any large items, materials or equipment
2. Likely locations are highly public areas, where objects can easily be discarded or hidden:
 - Concession areas
 - Restrooms
 - Trash cans – DO NOT MOVE

- Under tables and chairs
 - Beneath seats
 - Below or above advertising displays
3. Be aware of:
 - An object in an unusual place, especially stairwells and restrooms
 - Suspicious packages – improvised labels, unusual odors, oil or grease stains, wires or foil like materials showing.
 4. Most importantly, be careful. If you see or think you see anything questionable, record a description of the item, the location, and immediately relay this information to your supervisor or Security...by telephone or in person ONLY.
 5. Upon completion of your sweep, report your results to your supervisor.

ALL STAFF

1. MAINTAIN RADIO SILENCE
2. DO NOT TOUCH ANYTHING SUSPICIOUS. If you find something, report it and secure the area if necessary.
3. If a visual sweep is requested by your supervisor, do not provide any information to guests. Simply respond with:

“We apologize for the inconvenience; due to an operational situation we are experiencing, it is necessary to conduct a visual sweep of the area. Thank you for your assistance.”

4. Direct all questions to your supervisor.
5. If an evacuation is required, follow standard evacuation procedures.

Event Manager

If you become aware of a bomb threat, inform security via telephone ONLY and proceed to the security control room to obtain more information and to obtain a course of action, if necessary.

If there is an emergency, contact the General Manager on Duty and the Operations Manager and inform them of the emergency via telephone or in person.

Switch to Command Post channel

In the Security Control room, meet with the Security Manager or Operations Manager to review the situation.

Obtain detailed information about the threat – type, location, time, reason, etc...

Determine if Bomb threat is

- General
- Specific with location
- Specific without location

Follow procedures outlined for type of threat received.

GENERAL

Ensure that the Hoover Police Officer in charge on Duty has been notified.

As directed from General Manager on Duty, inform Dispatch to proceed with a radio announcement requesting Events Manager, Manager on Duty to report to the Administrative office area.

Upon their arrival and as directed from General Manager on Duty, inform them of the situation and have group perform a visual search of their areas accessible to the public. Events Manager will gather all supervisors and instruct them to perform a visual search of their areas accessible to the public.

Guests and staff are not to be informed.

All members of the management group will report their findings to the Event Manager

Include all recorded information into the Post Event Report.

SPECIFIC WITH LOCATION

Ensure that the Hoover Police Dept. Event Commander on Duty has been notified.

As directed from Manager on Duty, inform security to proceed with a radio announcement requesting General Manager., Events Manager, Security Manager, Operations Manager, Food & Beverage Manager and Shift Lead report to the Security Control Office.

The message “ WILL ALL MANAGEMENT PLEASE REPORT TO THE ADMIN OFFICE” will be broadcast over the radio. If the alarm has been activated during the show/event, it will be broadcast over the PA system.

Individuals (Event Manager, Operations Manager, Manager On Duty, etc...) directed from General Manager will perform visual search of specified area; request assistance from HPD Event Commander on Duty.

If a suspicious device **IS** found; determine need to evacuate and follow established procedures.

If a suspicious device **IS NOT** found; evaluate immediately with the HPD Officer in Charge on Duty. Following the completion of the event, inform Post-Event Housekeeping and Conversions managers of the threat and remind them to be aware of their surroundings, and to report any suspicious packages to Security during their shift.

Guests and staff are **NOT** to be informed

Upon completion of the visual search, and as directed by the General Manager on Duty only, inform the Team Representative and the Promoter.

Upon completion of the visual search, and as determined by the General Manager on Duty, contracted companies within the building may need to be informed.

Fire

The Hoover Fire Department as well as facility management, should make periodic inspections for fire prone or hazardous conditions. Developing and enforcing rigid facility policies regarding material that can be brought into the facility by event personnel and the public should be followed. Of course, any pyrotechnics set off in the facility should be forced to follow facility, Hoover Met Complex and City guidelines. All fires no matter how small must be reported to the City Fire Department for review.

If there is ever a threat to the safety of guests, employees or event personnel – evacuation of the facility or threatened areas of the facility should be ordered immediately by the Crisis Management Team on site in an orderly and controlled fashion.

Fire

Upon discovery of a fire, approach the area very carefully. Feel through doors or door handles for heat. **IF THE SURFACE IS HOT, DO NOT OPEN THE DOOR!!!**

In the event of a fire, notify the Manager on Duty or senior full time staff immediately.

If possible, attempt to extinguish the fire. Extinguishers are available inside each extinguished cabinet throughout the Finley Center. If you are able to, use the extinguisher to attempt to put out the fire.

Remember, do not use elevators in a fire and do not return to the facility until directed by the Executive Manager on Duty of the Fire Department.

General Procedures by Position:

Event Manager

If you become aware of the activation of a fire device, inform security and immediately proceed to the security control room to obtain more information and to obtain a course of action, if necessary.

If there is an emergency, contact the General Manager on Duty and the Operations Manager and inform them of the emergency.

Switch to the security channel

In Administration, meet with the Operations Manager to determine the course of action.

Identify the cause and location of the alarm and/or fire.

Meet with the General Manager on Duty at the fire control panel area to:

- Acknowledge the Fire Control panel – do this quickly as there are only 180 seconds from alarm activation to audible announcement if the panel is not acknowledged (most likely already acknowledged and silenced by security)
- Determine cause of the alarm
- Determine if fire can be controlled, or if fire alarm should advance to second stage
- Determine whether or not occupants in the vicinity of the fire should be evacuated. If so, identify and evacuation route and destination.
- Determine whether an event already underway can continue
- Determine if a full arena evacuation is required

Immediately inform promoter, Team Media Representative, Security Supervisor and Game Operations.

Then ensure that the following groups have been contacted: Food and Beverage personnel, the Box Office, event receptionist, contracted security, and contracted parking supervisor and any other contracted groups that may be working in the arena at that time.

If an evacuation is required and the alarm is allowed to proceed to second stage, an evacuation announcement will be forthcoming without a pre-evacuation message going out to all staff.

Upon arrival of the Fire Department, meet with General Manager on Duty with the responding Fire Commander and Event Commander on Duty and proceed as directed.

Monitor events and assist as directed by the Fire Department until and ALL Clear has been authorized.

General Manager or Manager on Duty

Once you are made aware of the fire emergency, inform Security and remain at location and access. If you are made aware by Dispatch, proceed to the location.

Contact the Event Manager and Operations Manager of the emergency

Remain on the designated security Channel

Meet with the responding Building Operator at the location of the alarm to access the scene and determine if:

- Activation was a false alarm
- Fire can be controlled
- Fire can not be controlled and evacuation is required.

Update Senior Management, Events Manager and Operations Manager regarding emergency response decision while proceeding to the Security Control office from the location of the alarm.

If an evacuation is required, follow normal evacuation procedures

Assist Events Manager as needed.

Security Staff

Once you are made aware of the fire emergency, immediately inform the General Manager on Duty and request to attend the location of the alarm.

If there the General Manager is not present request Manager on Duty, to attend the scene of the alarm.

Notify the Event Manager and the of OPS and request they report to the Security manager.

Dispatch the Building Operator or Technician to the scene of the alarm.

If the alarm is deemed false, inform the General Manager on Duty and Event Manager by telephone, if possible, if not, by radio.

If fire is confirmed, and as directed by the Executive manager on Duty:

- Contact Fire Department at 911 if necessary
- Broadcast pre-evacuation announcement over radio channels 1. This announcement should include but not be limited to:

“Attention all staff. Attention all staff. A fire has been reported at (LOCATION). A fire has been reported (LOCATION).All supervisors please switch to Channel 1, maintain radio silence and await further instructions.”

Continue to record vital information:

- Time of alarm
- Type of initiating device (pull station, smoke detector, sprinkler, etc...)
- Location of activation
- Status of fire control/evacuation

If directed by the Manager on Duty or Event Manager, proceed and follow evacuation procedures.

Assist as directed and continue to maintain and record events and times as they occur.

When authorized by the Fire Department and the Manager on Duty, give the **ALL CLEAR** announcement.

Guest Services Supervisor

Upon the Pre-Evacuation announcement over the radio, remain calm and switch to Security channel (remain in radio silence).

If you are in the vicinity of the alarm, you may be asked to proceed to the activated detection device and access the situation.

In assessing the scene, you may have to determine the following:

- Determine cause of the alarm
- Determine if fire can be controlled, or if fire alarm should advance to second stage
- Determine whether or not occupants in the vicinity of the fire should be evacuated. If so, identify and evacuation route and destination.
- Determine whether an event already underway can continue
- Determine if access to the area should be secured Report your assessment to the Security Manager.

If an evacuation is ordered, follow standard evacuation procedures. Ensure that staff are assuming emergency positions.

Monitor evacuation, stay in constant contact with your staff and provide assistance as necessary.

Ensure that the staff conducts a thorough sweep, including restrooms in their respective areas, after the evacuation is complete.

Report evacuation status and any important information to Dispatch

Upon confirmation of the ALL CLEAR from the Executive Manager on Duty or the Event Manager, follow arena re-entry procedures.

Guest Service Staff

Ensure your safety and the safety of the guests first. If necessary, immediately evacuate the immediate area in trouble.

Assess the scene and remember:

- What is the source
- Is smoke and/or flame present

Notify Dispatch by:

- Supervisor's or nearest radio
- Telephone
- Nearest pull station

Report location as well as the type of emergency and your assessment

If it is safe to do so, use an extinguisher to control the fire. If the situation is unsafe, secure the area keeping staff and guests away.

If necessary, immediately evacuate the area and those in it away from immediate danger.

If the evacuation is deemed necessary, follow procedures for an arena evacuation.

Report guest issues to your supervisor.

Mechanical/ Equipment Failure

In the case of lights or power outage - announcements should be immediately made to the guests in a continuous manner to keep them calm and informed of what's happening. This can be performed via either the event's sound system or through facility equipment. In the absence of amplified sound, the Crisis Management Team should have access to bull horn equipment. It is imperative that all staff, especially ushers, is equipped with flashlights to assist guests where lighting is not available. Building Operations Staff should immediately work on the problem and guests should remain in their seats as movement in the dark can create panic and medical emergencies. EMS staff should be notified immediately for quicker response.

In the case of seating breakdown or collapse – do what ever is possible to correct the situation and offer to reseat those guests involved. EMS staff should be notified to take care of any medical emergencies that may arise.

In the case of equipment failure - it is very important to keep the guests informed of the situation and work with the show personnel to correct the problem as soon as possible. In certain situations the box office will have to work with the event producer as to possible ticket refunds. This is another area where “an ounce of prevention is worth a pound of cure” an early detection can often prevent a small incident from becoming a major catastrophe. All personnel must be trained to look for equipment failures and report such failure to their immediate supervisor.

Every crisis has a potential for evacuation – but as previously been mentioned, building evacuations can itself become a crisis situation. Keeping this in mind it is important that all staff are well trained in their role in an evacuation and are always calm and alert.

The General Manager or Manager On Duty can initiate an evacuation with consultation from the appropriate agencies, on a partial or full-scale level. It can also erupt as a spontaneous reaction to a situation.

General Responsibilities

The key to any response is flexibility. No one individual has a concrete responsibility, however individual positions do. The individuals in a position will change, but the responsibilities of each position will remain constant.

Security:

- Designated “internal” officers will monitor the evacuation, ensuring there is no pilferage, vandalism, altercations or injuries.
- Designated “internal” officers will intervene and handle any of the above situations, however do not spend a lot of time on one situation, rather handle it and move on.
- Designated “internal” officers will be assigned to insure the safety and security of team personnel or performers.
- Once a majority of the evacuation is complete, “internal” officers move to the outside of the building to assist the exterior officers in crowd control.
- Designated “exterior” officers report to areas of responsibility outside the building and direct the evacuating guests away from the facility. In cooperation with the Hoover Police Department, keep the streets clear for emergency access.
- Only members of the Crisis Management Team, city officials and those employees taking instruction from a Crisis Management Team member shall be allowed to reenter the facility.

Staff

- Report to areas of responsibility and with the use of the bull horn or other emergency aids calmly direct guests to the nearest exit of the building.
- Assist guests with disabilities in your vicinity.
- Monitor the evacuation for any acts of pilferage, vandalism or injuries.
- Handle the above situation within the best of your ability without spending too much time on any one incident. Notify nearest security officer or management of any situation that may need further assistance.
- Once the evacuation of your area is complete, exit the building and report to the staff assembly area to be accounted for and receive additional instructions.
- Staff Members should always know of at least two exit passages for their area in case the most natural egress is unavailable.

Ticket Takers/Greeters:

- Ensure all exits are passable (i.e. barricade, turnstiles or tables)
- Assist guests with disabilities in your area
- Monitor the evacuation for any acts of pilferage, vandalism or injuries.
- Handle the above situation within the best of your ability without spending too much time on any one incident. Notify nearest security officer or management of any situation that may need further assistance.
- Once the evacuation is complete, exit the building and report to the staff assembly area to be accounted for and receive additional instructions.

Housekeeping/Operations:

- Assist guests out of the building
- Report to the staff assembly area to be accounted for and receive further instructions

Utility/Engineers and Electricians:

- Without putting yourself in danger, ensure that your work areas are secured and will not create additional hazards.
- Leave the building via the nearest exit
- Report to the staff assembly area to be accounted for and to receive additional instructions

Management:

- Managers without specific responsibility shall monitor the evacuation and assist wherever needed.
- Report to the staff assembly area to be accounted for

Detours

In the event that an exit or area is impassable, guests will be diverted to a different exit. In this case, the sections nearest the dangerous area will be evacuated first. All Event Staff employees must be notified of the diversion to enable them to adjust their directional patterns. Guests from other sections should be reassured and asked to wait, but should not be stopped from exiting the sections, as this may cause panic.

Assembly Areas

Triage Areas: City Paramedics will establish, if necessary, a triage area.

Lost Person Assembly Area: Lost persons should be sent to the designated triage area.

Player Assembly Area: The designated gathering area for players and team staff the front of the Gymnasium. Security will escort the players outside of the facility.

MEDIA/TENANT RELATIONS

A coordinated effort must be made to provide a uniformed message to all media outlets. The facility policy shall be that only the General Manager shall be permitted to discuss any matter with the media. No other employee, unless directed by the General Manager, should make any comments. This policy is not to hide information but rather to insure that all information is accurate. Event representatives should be kept informed of any situation and given every consideration as to what information concerning their event is announced.

CRISIS MANAGEMENT PLAN SUMMARY

This Crisis Management Plan has been created to give the employees of HOOVER MET COMPLEX tools they need to provide a safe environment for the diverse events we will host. We all hope that this plan will never be needed but if it is it will be here to provide the backbone for success. It is imperative that all staff in the facility buys into this plan and accepts ownership for their responsibilities. Our guests deserve no less.

This plan should be approved by management and appropriate agencies and be reviewed each year for updates and changes.

FACILITY PREPAREDNESS

TYPES OF CRISES THAT MAY OCCUR

Medical Emergency

A team of Emergency Medical Services (EMS) should be staffed for all events. The number of staff will be dependent on the nature of the event in keeping with facility policies. First Aid should be available at all times. It is imperative that communication is given between the EMS staff and the building staff to facilitate a quick response. In the event that additional support is required, the EMS staff should have Security Control call 911. The call should come from Events to guarantee consistency of information and direction. It is imperative that a member of the EMS staff complete a facility incident report, regardless if assistance is required or not.

Bomb Threats

As in the case of most large public assembly facilities, bomb threats are a likely possibility. **ALL BOMB THREATS MUST BE TAKEN SERIOUSLY!** All phones should have caller ID capability. The individual taking the call should remain calm and take down as much information as possible, keeping the caller on the phone as long as possible. Never place the caller on hold. When appropriate, the person receiving the call should notify their immediate supervisor should immediately contact Security, or management personnel. Security will respond to the location that the call came into and will immediately contact the General Manager or his Designee. The G/M should assemble the other available members as well as any other Hoover Met Complex managers onsite. At once, an immediate search of the entire facility should commence. Absolutely no mention of the situations should be made via any radio communication. While the search is underway, one member of the team will notify the Hoover Police Department and the Hoover Fire Department with a possible need to respond. This can be also done through the on site representatives. The Event Manager of the event should notify show management of the situation, updating as necessary.

If a suspicious device is found, all radio communication must be terminated immediately as many exploding devices can be set off by radio waves. The decision to evacuate must be made by the G/M or Manager On Duty in consultation with the representatives of the HPD. If a decision to evacuate is made, procedures should be followed as described herein.

If nothing is found, the decision to evacuate must be made by the General Manager or Manager On Duty in consultation with the representatives of the HPD/HFD. As always the decision to evacuate should be made as a last resort as often a building evacuation can become an emergency situation itself.
